

MISSOURI'S LONG-TERM CARE OMBUDSMAN PROGRAM

Who are Missouri's long-term care residents?

- Many have several physical impairments, and have an almost total loss of independence.
- Many are fragile, vulnerable, and dependent on staff for their care.
- Many have no close relatives or regular visitors.
- Many have difficulty voicing concerns to the facility, and need someone to help them share their concerns, such as a volunteer ombudsman.

What is an Ombudsman?

The word ombudsman(om-budz-man) is of Swedish origin, and means one who speaks on behalf of another. Volunteer Ombudsman come from all walks of life, many are retirees, others are professionals. What they have in common is a desire to make a difference in the lives of the elderly and disabled.

The Missouri Long-Term Care (LTC) Ombudsman Program is comprised of individuals whose main responsibility is to help residents in long-term care facilities maintain or improve their quality of life by helping ensure their rights are not violated. The ombudsmen serve as advocates by carrying the wishes and complaints of the residents to the facility's management.

Mission/Goals

The mission of the LTC Ombudsman Program is to provide ombudsman services to all residents of all long-term care facilities through advocacy and education.

The goals of the program are:

- To **ADVOCATE** for Resident Rights.
- To provide community education on long-term care issues.
- To provide ombudsman services to all residents of all long-term care facilities in Missouri.

Ombudsmen achieve these goals by:

- Making sure all residents are informed of their rights as established by law.
- Empowering residents and helping to resolve all complaints at the facility level through the involvement of all concerned parties.

Do you want to be a volunteer?

Sometimes long-term care facility residents need someone to help them speak up for their rights. The long-term care ombudsman trains volunteers to advocate for these residents, providing a vital link to quality care.

Ombudsmen Assist with Resident Complaints

Complaints are received in the strictest of confidence, and an investigation/ resolution is not attempted without the resident's permission unless the problem affects a number of residents and can be approached in a generic sense without breaching confidentiality.

Having a volunteer assigned to a particular facility provides the most accessible means of complaint resolution. Missouri's long-term care facility regulations include resident access to the services of an ombudsman 19 CSR 30-88.010-2 (18).

Organization

Missouri's ten Area Agencies on Aging administer the program on the local level by designating someone as the regional ombudsman coordinator. This coordinator may be an Area Agency on Aging staff person or may be a person who contracts with the area agency. Responsibilities of the coordinator include recruitment, training and supervision of volunteers.
